

## HELP US PLAN OUR COMMUNITY DEVELOPMENT PROGRAMME

We are the CRV East London Team. We already hold a number of projects to support Vietnamese/Chinese people at CRV East London centre.

In 2014 we want to work with our partners to start more initiatives targeted at the Vietnamese and Chinese people. We have a few ideas already but we'd really like to hear what you think.

Please circle the type of activity that you think might be most beneficial to you and the community.

### Financial Inclusion

This might include benefits advice and support, debt management training, budgeting or advice on reducing utility bills.

### Employment and training

This might include help with cvs, job applications and skills based courses that may help into employment in the future.

### Housing advice and Support

This might be providing help and advice with housing matters such as support with repairs, tenancy issues or housing applications.

### Health and wellbeing

This might include support in accessing health care, healthy eating, stopping smoking

### Group based services

This might be organising activities and support for old people, young people, families or victims of domestic violence.

### Other activities

This might be working with you on any projects that you suggest such as helping with a neighbourhood improvement or helping you organise culturally specific activities.

Any other comments or suggestions that you'd like to make.....

**Please complete this and return it to C.R.V staff**
